PROFESSIONAL SUMMARY

Motivated Diploma student in Computer Engineering with hands-on experience in Data Science, Machine Learning, and Backend Development. Completed two industry internships and IBM-certified in Data Fundamentals. Adept at building scalable backend APIs with FastAPI, crafting frontend experiences in React.js, and working with ML pipelines. Actively exploring cybersecurity through CTF challenges. Committed to building secure, data-driven technology solutions.

EXPERIENCE

Data Science & ML Intern · Su-kEm Tech Lab, Ahmedabad May 2025 – Jul 2025

- Worked on supervised and unsupervised ML models using Python (scikit-learn, pandas, numpy).
- Performed EDA, data cleaning, and feature engineering on real datasets.
- Developed and evaluated classification and regression models; presented findings to mentors.
- Recognized for strong work ethic and driven approach by company leadership.

Web Development Intern (Django) · INFOLABZ IT Services Pvt. Ltd. Jun 2024 – Jul 2024

- Built and maintained web applications using Python Django MVC framework.
- Developed RESTful backend features; integrated MySQL database with CRUD operations.
- Collaborated with senior developers on frontend tasks using HTML, CSS, and basic JavaScript.

EDUCATION

Diploma in Computer Engineering

Government Polytechnic Ahmedabad | 2023 – 2026

CERTIFICATIONS & TRAINING

Data Fundamentals	IBM SkillsBuild	May 2025
Data Science & Machine Learning	Su-kEm Tech Lab (Finishing School)	Jul 2025
Web Development using Django	INFOLABZ IT Services Pvt. Ltd.	Jul 2024

TECHNICAL SKILLS

Languages	Python, Java, PHP, C++, SQL
Backend	FastAPI, Django, REST APIs, MySQL, PostgreSQL
Frontend	React.js, HTML5, CSS3, Angular (basic)
Data & ML	scikit-learn, pandas, numpy, matplotlib, EDA, Feature Engineering
UI/UX	Figma (wireframing, prototyping, design systems)
Cybersecurity	CTF Challenges, Linux basics, exploring network security & ethical hacking
Tools	Git, MS Office (Word, Excel, PowerPoint), Video Editing
Concepts	OOP, Data Structures & Algorithms, DBMS, Software Engineering

PROJECTS

FastAPI Backend Service | *Python, FastAPI, PostgreSQL*

- Designed and built a RESTful API with authentication, CRUD endpoints, and database integration.

ML Data Analysis Pipeline | *Python, scikit-learn, pandas*

- Built an end-to-end data pipeline for preprocessing, model training, and result visualization.

Online Product Catalog Website | *PHP, MySQL*

- Developed a dynamic product listing site with search, filters, and admin CRUD panel.

Python Utilities Toolkit | *Python (os, datetime, qrcode)*

- Built a set of utility scripts including QR code generator, file organizer, and date calculator.

Library Management System | *C++*

- Console-based application with record management, search, and borrow/return tracking.
